

RNG FORUM 2026

April 14-16, 2026

CentreExpo Promutuel Assurance,
Drummondville, QC, Canada

Call for Panellists

Be Part of the RNG Forum 2026

BiogasWorld invites you to showcase your expertise at RNG Forum 2026!

This RNG event is your opportunity to share your knowledge and highlight your expertise in the field of renewable natural gas (RNG).

In 2026, RNG Forum organizers have opted for panel discussions instead of presentations on a range of topics.

If you are an expert, feel free to submit your application.

Important Dates

Panellists' application process opens: September, 2025
Application deadline: November 1, 2025
Notification of decisions: January, 2026

List of Topics for Panel Discussions

In 2026, RNG Forum organizers are opting mainly for panel discussions, based on comments we received from our previous participants.

If you are a subject expert on the topics below, feel free to submit your application:

- Project development and project financing
- Risk management and project safety
- Future of RNG and new markets (SAF, maritime, etc.)
- RNG production at farms
- Industrial and municipal RNG projects
- Innovations in the management of digestate and CO2
- Carbon intensity and environmental attributes
- Benefits and risks of RNG projects
- Artificial intelligence for RNG industry
- Power-to-gas and pyrogasification

Feel free to suggest another topic for a panel discussion

Panel format

The RNG Forum 2026 will feature two dedicated conference rooms (up to 300 attendees) to host the panel discussions and presentations.

Each session will be moderated and will not exceed 1h30 minutes.

Upon Acceptance

The decision on whether the application is selected will be communicated as soon as the content committee completes the review.

Accepted panellists will receive a free **two-day registration** for the RNG Forum 2026 and will be invited to a preparatory session with panel participants before the event.
